FritzGUARD®

Water Conditioner For Fresh & Saltwater

- Reduces Stress
- Promotes Healing & Slime Coat
- Detoxifies Heavy Metals
- Provides Electrolytes
- Promotes Nitrification
- pH Balanced

FritzGuard® is a safe and effective pH buffered water conditioner that neutralizes toxic chlorine, chloramines and heavy metals found in tap water. FritzGuard® promotes healing and reduces fish stress with Aloe Vera, Vitamin E, and provides necessary electrolytes. Naturally secreted by mucous glands, the slime coat is a natural defense system that protects fish from disease, aids in osmoregulation and reduces stress caused by sudden changes in the environment. FritzGuard® provides a replacement slime coat to aid fish that have lost theirs or have been injured due to stress, poor water conditions and handling. FritzGuard® enhances biofiltration by producing a slime coat over the filter media, aiding in the attachment of beneficial bacteria, like those in FritzZyme® biological products.

Dosage / Instructions:

Use 1 cap (1tsp/5ml) per 10 U.S. Gallons (38 L). For best results, add FritzGuard to tap water before adding water to aquarium. For marine aquariums, turn off protein skimmer for 6 hours after adding FritzGuard to reduce foaming. Dosage can be safely increased or repeated up to 5x.

Available Sizes / Item # / Treats

Size / Treats	Item #
2 oz (120 gal)	80254
4 oz (240 gal)	80255
8 oz (480 gal)	80259
16 oz (960 gal)	80256
1 gal (3,840 gal)	80257
5 gal bucket (19,200 gal)	80231
5 gal cube (19,200 gal)	80261
