

Pond**COMPLETE**

Water Conditioner For Ponds & Water Gardens

- One-Step Nitrogen Cycle Management
- Does Not Affect pH
- Safe for All Plants and Aquatic Life

Fritz Complete is a concentrated, one-step, full-spectrum water conditioner that detoxifies chlorine, chloramine, ammonia, nitrite and nitrate. Safe to use with all pond fish, plants, and turtles. Use when setting up new ponds, performing water changes, or to quickly alleviate high ammonia, nitrite & nitrate.

Dosage / Instructions:

Use 1 cap (1tsp/5ml) per 50 U.S. Gallons (189 L). Each cup treats 2,400 gallons. For best results, add Fritz Pond Complete to tap water before adding water to pond. If treating pond for ammonia, nitrite, or nitrate, base dose on pond volume. For extremely high levels of chloramine or nitrite, dosage can be repeated or increased up to 5x within a 24 hour period. **DO NOT OVERDOSE.** A sulfur odor is normal and dissipates rapidly after use. In certain rare conditions and in low oxygen environments this product may reduce dissolved oxygen levels; ensure there is adequate circulation/aeration before adding. This product will affect the accuracy of Nessler type ammonia test kits and Winkler type oxygen test kits. Salicylate ammonia test kits are recommended.
